THE UNIVERSAL TALENT.
Speak kindly to the millionaire;
Perhaps he does his best.
Don't try to drive him to despair
With rude, unfeeling jest.
Don't laugh at portraits which display
His face with comic leer,
And when he gives his wealth away
Don't take it with a sneer.
Speak kindly to the millionaire,
He has a right to live,
And feel the sun and breathe the air
And keep his coin or give.
You may be rich yourself, you see,
Before your life is through;
Speak kindly, and remember he
Is human, just like you.

MURPHY, the Jeweler.

The attention of Judge Cochran of the United States Court at Covington was called Tuesday to the case of Edward Gordley who was convicted of counterfeiting in Bracken county last spring and has since been confined in the Newport Jail, where he developed consumption and is in a bad condition. Gordley was arrested with his father, Zach Gordley, his brother, Robert Gordley, and men named Jack Hefel and Jim Kiscaden, all of whom were convicted. The condition of young Gordley being explained Judge Cochran ordered the boy to be released.

Do Good—It Pays.

A Chicago man has observed that "Good deeds are better than real estate deeds—some of the latter are worthless. Act kindly and gently, show sympathy and lend a helping hand. You cannot possibly lose by it." Most men appreciate a kind word and encouragement more than substantial help. There are persons in this community who might truthfully say: "My good friend, cheer up. A few doses of Chamberlain's Cough Remedy will rid you of your cold, and there is no danger whatever from pneumonia when you use that medicine. It always cures. I know it, for it has helped me out many a time." Sold by J. Jas. Wood & Son.

Jim Purdon's Lou Dillion, that he has attached to a 4x6 cart, took a sprint this morning on the East End boulevard and before the wreck came it looked as though the 2300 gait would be knocked into smithereens. Fortunately no one was killed—but the cart.

SHUT UP SHOP.

Pants Factory Unable to Secure Sufficient Help to Run It.

The Pants Factory is no more. It shut up shop this morning and is now packing preparatory to moving away. This is very unfortunate for our city, but it is altogether due to a lack of interest on the part of those who professed to want work.

The proprietors informed THE LEDGER that the first week here gave promise of success but just as soon as the operators of the machine learned how to do the work they quit, saying they were going to the city.

From fifty experienced women the number decreased and on Monday morning only five showed up for work. Rather than entail further losses they concluded to give the enterprise up and return to Dayton, Ky.

KICKERS' CORNER

If any one at any time for any reason has any cause to "kick" in any way at anything of any kind, here's the place to say his say. The door is open—walk right in and tell yourself, free gratis and for nothing—but don't make your "kicks" too long—it's the short, quick fellows that count—and cut.

The name of the kicker must accompany the kick, or it'll be kicked into the waste-basket.

ONE RIGHTEOUS KICK.

Editor Ledger: Why will the Managers of the Opera-house permit a few idiotic buffoons to mar the pleasure of its patrons to the extent of driving them from the house, and bring shame upon it and its Managers? People who pay their money to see a performance should have protection against such lawless behavior that infested the house last night.

THE LEDGER indorses every word of the foregoing.

Repeated efforts have been made to have the city police preserve order in the Opera-house all to no avail.

Then the Opera-house Management has appointed "Special Officers," duly sworn in, to preserve order—only to have hair-splitting lawyers and willing Courts declare that these officers were not officers and had no power to put any one out of the house, no matter what his behavior.

Last Saturday night the writer was at the Opera-house, and made a personal effort to induce a large number of "ladies and gentlemen" to stop munching peanuts and throwing the shells on the floor in the parquet—but he might as well have spoken French to the Timbuctoese. So what are the Managers to do?

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address, F. J. THE TWO JOHNS.

The critic of The Cincinnati Enquirer said Sunday, October 18th, after the close of the engagement: Think of "The Two Johns" doing the biggest business of Robinson's, and a paying business too. Who would have imagined that this time-worn old farce would turn such a record. It did, and was well liked by the people that it attracted to that theater. A dozen years ago it was thought that it had exhausted its usefulness, but the present revival only indicates how far out of line the managers were on that proposition, for Manager Arnold says that his local experience is but a duplication of others he has enjoyed since the tour was started early in the season. This company is a good one and you will miss a pleasant evening if you are not at the Opera-house Friday night. Seats now on sale at Ray's Drugstore.

THERE was an odious Republican "Machine" in absolute control of affairs in Indianapolis; and at the recent municipal election the decent Republicans joined with the decent Democrats in "knocking it out." It remains to be seen if the decent Democrats of Kentucky will unite with the decent Republicans in "busting" the obnoxious Machine at Frankfort.

In the government of their East Indian possessions the Dutch have a law which provides that the testimony of one white man shall be equal to that of seven natives. In a slightly modified form, the same law has for some time been in full force in some parts of Kentucky:—the testimony of one perjurer being more than equal to that of a dozen honest men.

GOV. BRADLEY'S CALL TO DUTY.

Chairman John C. Wood of the Republican Speakers' Bureau has received the following letter from former Governor Bradley:

Louisville, Ky., October 23, 1903.

Hon. John C. Wood, Chairman Speakers' Bureau—Sir: Had my health justified I would have spoken for the Republican party before this, and shall certainly speak as soon as able.

The best interest of the state requires the election of the Republican ticket, and I trust that no man will be found who is not willing to do his duty.

I hope that no effort will be spared to register the vote in the cities and towns of the Commonwealth, as this is the foundation of success, and in the absence of a full and proper registration we cannot hope to win. Your friend, W. O. BRADLEY.

CONSTITUTIONAL AMENDMENT

To Be Voted On at the November Election.

CHAPTER 50.

An act to provide for an amendment to Section 181 of the Constitution of Kentucky.

"The General Assembly may, by general laws only, authorize CITIES OR TOWNS OF ANY CLASS to provide for taxation for municipal purposes, on personal property, tangible and intangible, based on income, licenses or franchises, in lieu of an ad valorem tax thereon;

"Provided, cities of the first class shall not be authorized to omit the imposition of an ad valorem tax on such property of any steam railroad, street railway, ferry, bridge, gas, water, heating, telephone, telegraph, electric light or electric power company."

PLENTY OF IT.

Lots More Proof Like This, and It Is All From Maysville People.

"The proof of the pudding is in the eating of it." If any city or town in the Union has sufficient proof on the following subject it is Maysville. Genuine merit is finding its reward in the hearty indorsement of local citizens. When people right here at home, friends and neighbors of our readers, give a statement like the following for publication it is proof convincing for the most skeptical. Read this testimony:

Mr. A. W. McClanahan of 119 West Second street says:

"The use in my case fully demonstrated the value of Doan's Kidney Pills. I suffered more or less from kidney trouble for twenty years, steadily becoming more persistent as time passed on. My attention was called to Doan's Kidney Pills and I got a box at J. James Wood & Son's Drugstore, corner of West Second and Market streets. The treatment so greatly benefited me that my only regret is that I did not know of this valuable remedy years ago, for had such been the case I would have been saved much suffering."

For sale by all dealers. Price 50 cents a box. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

Remember the name—Doan's—and take no substitute.

It is said that Mr. BRYAN will sail soon for a tour of Europe. When he gets to gay Pa-ree he might wire to his whilom friend Marse HENRI—"No compromise with dishonor."

AFTER the New York Courts are through airing the blackmailing transactions of the Walking Delegates, some people may change their minds as to THE LEDGER's opposition to these carmbles on the labor Unions.

A correspondent of The Louisville Herald "humps up his back up," charging that paper with an attempt to place such men as ex-Governor Bradley and ex-Governor Brown on a level with as high-minded, high-toned gentleman as Governor Beckham, a man that has stood by and for the common people; and The Herald promptly disclaims any such intention, citing a single instance in which there is a distance between their levels of \$71,100.03, established by Governor Brown himself. He was handling the money of the taxpayers and collected \$800,041.03 of war claims from the National Government at a total cost of 2 cents in postage. This was in 1892, when Governor Brown was a plain Democratic Governor, without guile and without itch to divert the money of the people from their possession. In those old-fashioned days that was considered right and Democratic. But in 1903 that high-minded and high-toned gentleman, Governor Beckham, handling the same sort of claim, collected \$1,323,000.35, and it was cashed on the spot of \$71,100.03. There is not only high-mindedness and high-tonedness for you, but also high-pricedness. Mr. Beckham is away up high above Governor Brown's level—that is, if Mr. Beckham can be said to be on the level. The account can be presented in this form:

Cost to the state of collection of \$800,041.03 by Gov. Brown	\$800,000.02
Cost to state of collection of \$1,323,000.35 by Gov. Beckham	71,100.03
Difference in cost	\$71,100.03

It is hardly probable that Governor Brown could reach Governor Beckham's level in a life-time, even if he tried. It is still more improbable that he would try. Calhouning was not considered Democratic in his day.

Political Pickings

THE ISSUE AS BECKHAM HAS MADE IT.

Georgetown Sentinel.

Governor Beckham has declared from the stump time and again that if re-elected Governor he will not pardon Curt Jett and Tom White, and in every speech he makes, asks Colonel Beckman if he will pardon Caleb Powers and Jim Howard if he is elected.

That can be construed but one way. If Mr. Beckham is elected Powers must hang. He has made that the issue himself and the voters are now compelled to decide by their ballot whether or not Caleb Powers shall hang without being given a fair trial or whether he shall be given a fair and impartial trial as guaranteed by the constitution. Will you vote to hang Powers or will you vote to give him such a fair trial as is guaranteed by the Constitution of the United States and of this Commonwealth?

You cannot dodge the issue. You will decide the question by your vote. If it is cast for Mr. Beckham, after he has made the declaration, you will be as guilty of judicial assassination as if you had been in the Jury box and pronounced the sentence of death upon him yourself.

In the name of justice, think seriously of this matter before you vote.

UNEQUAL AND UNJUST.

Section of Constitution Relating to Local Taxation.

TO VOTE ON AMENDMENT NEXT FALL.

Wm. A. Robinson, Before State Commercial Convention, Makes a Speech on the Present System of Taxation—Says It Retards State Development.

The State Commercial Convention in Louisville last month might have truly been called the State Development Convention, for all of the sessions pointed an unerring finger at Kentucky's untold wealth that is yet undeveloped. Judge S. S. Savage of Ashland, who is a director of the Kentucky Exhibit Association, which organization is looking especially after a great display of Kentucky's resources at the World's Fair next year, was the presiding officer of the meeting and has been made chairman of the State Committee, which will make every endeavor to carry at the polls next November the proposed amendment to Section 181 of the State Constitution, which has to do with local taxation. One of the speeches made during the convention on this subject was by Mr. Wm. A. Robinson of Louisville. Mr. Robinson said in part:

In the first place, I would remark, that taxation is a subject in which every good citizen is interested more or less, either directly or indirectly. The Constitution of 1891, the present Constitution under which we are governed, was the first of the four Constitutions of the State of Kentucky to fix a taxable system in the organic law as to local taxation, and it was a complete revolution in regard to taxation on the industrial interests of our Kentucky cities. It was a radical measure, and, as I

JUDGE S. S. SAVAGE, Ashland.

believe, with all the intelligent study I have been able to give it, it was a great mistake in policy, and I believe it is wrong in principle. It is contrary to the great American doctrine of home rule and local self-government, especially on that most vital question of local taxation for local government. It substituted a so-called uniform ad valorem system for the license system on business enterprises. It made every merchant and every manufacturer his own assessor, and I believe you will hear me out, those of you who have observed the working of this law, that it is as ununiform and as variable as the flexibility of a man's conscience, his judgment, or his sense of right. It is necessarily unequal, ununiform, and therefore, unfair and unjust. The change led to litigation which has gone on down for ten years, there being many cases yet in the Court of Appeals unsettled.

This amendment which is now proposed simply places us back practically in the matter of local taxation to where we were before under the former Constitution. It restores to all cities, not to cities of the first-class only, as is often stated in our papers, but to all cities, every city in the State of Kentucky, the right under the general act of the Legislature, to fix its own assessment, its own system of taxation on all other property except real estate. They will have the right to tax by license or otherwise. It lodges the power with the local government, subject to our State Legislature, composed of the representatives of the people of the State.

Now, bear in mind that it makes no changes whatever in the system of taxation, for either State or county. Remember also that it bears upon all the cities of the State, not upon cities of the first-class, or cities of any other class, but ALL the cities of the State. No city had no town need adopt this plan unless they choose to. It is optional with the local authorities, with the people who are to be taxed. The representatives of the people to be taxed can say under which system they wish to be taxed, and the Legislature, by general law may authorize the cities that choose to adopt that plan to adopt it. So that it is a purely local matter, left to the people of each city, and I submit to you whether Lexington or Paducah have not a perfect right to say how they shall pay their bills, how they shall pay their fire department, how they shall build their streets, how they shall build their sewers, without the intervention of the general State Government at Frankfort.

I have faith that when it is properly understood and brought before the people of our State it will receive a large majority of the votes next November. I believe it is as much to the interest of the State as it is to any city, because as you build up your cities you certainly add to the revenue of your State. You add to the wealth, and

you add to the population. Bear in mind that it only requires a majority of the votes cast on this question, and not a majority of all the voters of the State. We must have prompt action now, because if this measure fails to receive such a majority in November, under the Constitution of our State the matter cannot be brought up again for five years.

The farmers are as much interested in this matter as any of our people. It is a plain proposition that the farmer is benefited as you make larger home markets, because you give him the consumer at home for his product, without the loss of freight. The agriculture interests of the State are going to be subverted as you increase the population. There cannot come, that is, for the export business, with the cheap lands of the West in raising wheat. They must raise market products, and other products and grain for consumption right here at home among our own people. Factories must be located in cities, because it is there that you find labor. It is there you find banking capital. It is there you find transportation. Therefore the people of Kentucky must let the cities of the State—all the cities, not only cities of the first-class—decide this important question of how you are going to tax these industries. The cities only are affected by this proposed amendment. If they desire it, why not let them have it?

Citizens in Neighborhood of Cherry Alley Register a Kick.

It is evident those in power were not familiar with the geography of that part of the city where Cherry alley crosses Fourth street. There is a break in the sidewalk between Mr. Parker and Mr. Murphy, caused by this alley that has a fall at the farthest point of about four feet, and an unfortunate who happened to fall over this dangerous place would more than likely break his neck, certainly some bones.

Heretofore a gaslamp has stood as a beacon light to warn pedestrians of danger, and it has fulfilled its mission well, for not a single mishap has occurred during the time of its life and usefulness.

In the wisdom of some of the city's sages this light has been removed and the place left in total darkness.

It is a dangerous pitfall to all who would their way along that street after nightfall.

The light should be restored. The cost is insignificant in comparison to a lawsuit for damages for a life or a mangled body.

Will the Light Committee of the City Council please look into the matter and act wisely accordingly by restoring the gaslamp?

This water will help packets reach up-river points, where the stage was again becoming low at points.

CLIMATIC CURES.

The influence of climatic conditions in the cure of consumption is very much overrated. The poor patient, and the rich patient, too, can do much better at home by proper attention to food digestion and a regular use of German Syrup. Free exportation in the morning is made certain by German Syrup; so is a good night's rest and the absence of that weakening cough and debilitating night sweat. Restless nights and the exhaustion due to coughing, the greatest danger and dread of the consumptive, can be prevented or stopped by taking German Syrup liberally and regularly. Should you be able to go to a warmer climate, you will find that of the thousands of consumptives there, the few who are benefited and regain strength are those who use German Syrup. Trial bottles, 25c, regular size, 75c. At Henry W. Day's, next door to Postoffice.

The Court of Appeals, in an opinion by Judge O'Rear, affirmed the Harrison Circuit Court in the case of D. Bradley Shawhan vs. Harrison county. Shawhan was the Auditor's Agent for Harrison county, and made a contract with the Fiscal Court in 1900 to collect certain back taxes owing the county, by which he was to receive one-fourth of the amount collected. The Court holds that it was the duty of the Sheriff to make the collection and that the powers of the Auditor's Agents are limited to sue for taxes on unlisted property.

As You Like It

That is about the way The Mutual Life Insurance Company of New York issues policies in these days of varied requirements in business and family life.

The postscript to a letter written by Mr. Elie Walter, of Clarksville, Del., enforces this thought:

"The terms of the dividend paid me of \$507, making my policy #1007, of a total cash value of \$607.19 are fully appreciated. But the settlement which I have chosen seems to be the best suited to my present circumstances."

What Mr. Walter did take was a dividend check for \$196.98 on the paid-up policy of a \$1,000, which cost him all told \$145.02. He says:

"The feature which I particularly like about my policy is that the longer I live the more I get and that during the balance of my life there is nothing more for me to pay."

(From Wilmington (Del.) News, Nov. 27, 1902.)

In writing for terms for a policy of this kind, state what you would like to receive in cash at the end of limited payment period, amount you would like your beneficiary to receive in event of your death, and give your age.
